PROFESIONAL SUMMARY

Junior Full Stack Developer specialising in Java Spring Boot and React Native. Holds a Higher National Diploma in Multi-platform Application Development, with internship experience at Indra/Minsait and a 10/10 final project integrating OpenAI assistants into a production-ready mobile app. Seeking a product team to apply clean architecture and grow in an agile environment.

WORK EXPERIENCE

Software Developer Inter - Indra / Minsait
MARZO 2025 - JUNIO 2025 | VALENCIA

- Built REST services with Java & Spring Boot for enterprise client systems.
- Developed UI components with ZK Framework.
- Queried relational data with SQL, used Git and Jira within a Scrum team.

Freelance Web Developer
MAY 2022 - PRESENT | REMOTE

- Designed and delivered client websites using WordPress, Wix, Shopify and WooCommerce.
- Built costumbres layouts with Elementor. Managed ent-to-end delivery from brief to launch.

Front Office - Ricard Camarena (2 Michelin Starts)
MAY 2023 - JUNE 2024 | VALENCIA

- Managed reservations and guest communications using CoverManager, Outlook and WhatsApp Business in a bilingual (Spanish/English) environment.
- Handled payment processing and coordinated online sales through the restaurant's e-commerce channel.
- Tracked bookings and reporting data using Excel across a high-volume, fast-paced operation.

PROJECTS

CalorIA - AI Nutrition App
FINAL YEAR PROJECT - GRADE: 10 / 10
BRIANSITTMAN.DEV

Stack: React Native(Expo SD 53), Java Spring Boot, MongoDB, OpenAI API

- Two custom OpenAI assistants for real-time food analysis and personalised recipe generation based on macros and allergies.
- Stateless JWT auth with SPring Security, tokens stored via AsyncStorage and injected through an Axios interceptor.
- Full RESTful API designed and consumed across both mobile and backend layers.

Frog Ninja - 2D plataformer
BRIANSITTMANN.DEV

Stack: Unity, C#

- Multi-level plataformer exploring C# game architecture, physics and level design.
